

PiGold (PiGold)

Professional Whitepaper

BNB Smart Chain • AI Ecosystem • Community Driven

Executive Summary

PiGold is a community-focused ecosystem token inspired by the Pi ecosystem and designed for the BNB Smart Chain. The vision is to combine blockchain, AI-assisted automation and future decentralized applications into a unified digital ecosystem.

Türkçe: PiGold, Pi ekosisteminden ilham alan ve BNB Smart Chain üzerinde geliştirilen topluluk odaklı bir ekosistem tokenidir. Amaç; blokzincir, yapay zekâ ve otomasyonu bir araya getiren sürdürülebilir bir dijital ekosistem oluşturmaktır.

Core Features

- BNB Smart Chain
- Maximum Supply: 100 Billion PiGold
- Community Driven
- Future dApp Integration
- AI-powered ecosystem vision
- Smart Contract Infrastructure

Roadmap

- Phase 1 – Branding, Website, Community Launch
Phase 2 – Smart Contract & Security Review
Phase 3 – Token Launch, Listings, Staking
Phase 4 – AI Mining Robot & dApps
Phase 5 – Global Partnerships & Ecosystem Expansion
